

Monique M Andrews MSc DC DNM

151 Second Avenue Ottawa, ON K1S 2H6 613.230.0909 drmonique@thepranagroup.com

Publications

- Andrews, M. (2001) **Graduate Research Paper- Palmer College of Chiropractic**, *Effects of Upper Cervical Chiropractic Care on Systolic and Diastolic Blood Pressure in a Patient with Moderate Hypertension.*
- Brebner, K., Froestl, W., Andrews, M., Phalen, R., and Roberts, D.C.S. (1999) **Neuropharmacology**, *The GABA_B agonist CGP 44532 Decreases Cocaine Self-administration in rats: Demonstration using a Progressive Ratio and a discrete trials procedure.*
- Roberts, D.C.S. and Andrews, M. (Vol 13/No.4, 1997) **Psychopharmacology**, *Baclofen suppression of Cocaine Self-administration : Demonstration using a discrete trials paradigm.*
- Zacharko, R.M., Zalzman, S., MacNeil, G.M., Andrews, M., Mendella, P.D. and Anisman, H. (vol 58(4):881-6, 1997) **Pharmacology, Biochemistry and Behavior**. *Differential effects of immunological challenge on self-stimulation from the nucleus accumbens and the substantia nigra.*
- Roberts, D.C.S, Andrews, M., and Vickers, G.J. (vol. 15:417-423, 1996) **Neuropsychopharmacology**. *Baclofen attenuates the reinforcing effect of cocaine in rats.*
- Ranaldi, R., Andrews, M. and Roberts, D.C.S (In Press) **Journal of Pharmacology and Experimental Therapeutics**. *Effect of DA D2 partial agonists on cocaine and food reinforcement.*
- Andrews, M. M. and Roberts, D.C.S (November, 1996) *Gaba_B agonists attenuate reinforcing effects of cocaine in rats.* **Society for Neuroscience Abstract**, 26th Annual Scientific Meeting. Washington, DC
- Roberts, D.C.S. and Andrews, M. (June, 1996) *Baclofen attenuates the reinforcing effect of cocaine in rats.* **College on Problems of Drug Dependence**, 58th Annual Scientific Meeting (Published in National Institute on Drug Abuse Research Monograph).
- Andrews, M., Vickers, G.J. and Roberts, D.C.S. (November, 1995) *Baclofen attenuates the reinforcing effect of cocaine in rats.* **Society for Neuroscience Abstract**, 25th Annual Scientific Meeting. San Diego, CA.
- MacIntyre, T.L., Andrews, M., and Roberts, D.C.S (November 1995) *Microinjection of dopamine D₂ receptor antisense oligonucleotides disrupts cocaine self-administration in the rat.* **Society for Neuroscience Abstract**, 25th Annual Scientific Meeting. San Diego, CA.
- Andrews, M. and Roberts, D.C.S. (1995) *The GABA_B agonists Baclofen and SKF 97541 attenuate the reinforcing properties of cocaine in the rat.* Technical manuscript for **National Institute on Drug Abuse**.
- Roberts, D.C.S. and Andrews, M. (June, 1994) *Amperozide decreases cocaine self-administration by rats.* **College on Problems of Drug Dependence**, 56th Annual Scientific Meeting. (Published in National Institute on Drug Abuse Research Monograph)
- Andrews, M. and Roberts, D.C.S. (1994) *A profile of the potential pharmacotherapeutic substance Amperozide under the discrete trials schedule of cocaine self-administration.* Technical manuscript for **National Institute on Drug Abuse**.
- Andrews, M. and Roberts, D.C.S. (1993) *Behavioral economics of cocaine self-administration under a discrete trials procedure.* Technical manuscript for **National Institute on Drug Abuse**.
